

# Government Financial and Revenue Advisory RFP

## Questions and Answers

May 1, 2007

---

- 1. In relation to the financial advisory services for Special Projects including Asset Securitization and Other State Debt Management Initiatives, the scope of services notes that Special Projects include “securitizing assets, operations, forecasting and analyzing revenue sources or evaluating and/or entering into public private partnership arrangements”. For the purpose of evaluating responses to a firm’s capability and experience in relation to Special Projects, please confirm that “asset securitization” can include experience relating to all those elements of service within that scope.*

In its evaluation of responses, GOMB will review any and all relevant experience included in each response.

---

- 2. Would the State consider increasing the page limit on the current RFPs?*

GOMB has increased the page limit for responses from 10 pages to 13 pages. Please limit the combined cover letter and the response to a total of 13 pages (not including attachments and appendices which may be required pursuant to Section IV-B relating to legal and compliance matters).
