Selected Questions and Answers  
January 19, 2007

---

1. *[We] recently submitted a proposal to provide actuarial services for the State Employees' Retirement System of Illinois. Does this preclude us from bidding on the OMB work? We understand that one of the components of the OMB assignment is to provide an independent evaluation of the actuarial studies that were done by the State Employees' Retirement System actuary.*

GOMB welcomes any response designed to meet the requirements of the RFP. Please describe any potential conflicts of interest in Appendix B of your response. GOMB will, in its sole discretion, determine whether any potential conflicts will preclude a successful bidder from providing the requested services.

2. *What were the aggregate billed hours by D&T for the requested scope of activity during the past two fiscal years?*

The previous two fiscal years involved substantial procedural and legislative changes. The scope of work requested in this RFP (and, accordingly, the total hours required to complete the work) is therefore distinguishable from the services provided during prior fiscal years; in addition, required hours continually fluctuate.
